JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, TUESDAY, 30TH JANUARY, 1951.

This being the day on which Parliament is convoked by Proclamation of the Governor General for the despatch of business and the Members of the House being assembled:—

PRAYERS.

Mr. Speaker communicated to the House the following letter which he had received:—

GOVERNMENT HOUSE
OTTAWA

OFFICE OF THE SECRETARY TO THE GOVERNOR GENERAL

15th January, 1951.

Sir,—I have the honour to inform you that His Excellency the Governor General will arrive at the main entrance of the Houses of Parliament at 3.00 p.m., on Tuesday, January 30th, and when it has been signified that all is in readiness, will proceed to the Senate Chamber to open the Fourth Session of the Twenty-first Parliament of Canada.

I have the honour to be,

Sir,

Your obedient servant,

H. F. G. LETSON,
Major General
Secretary to the Governor General.

The Honourable
The Speaker of the House of Commons,
Ottawa.

A Message was delivered by the Gentleman Usher of the Black Rod:—

Mr. Speaker:

His Excellency the Governor General desires the immediate attendance of this Honourable House in the Chamber of the Honourable the Senate.

The House attended accordingly;

And being returned:

Mr. St. Laurent, by leave of the House, introduced a Bill, No. 1. An Act respecting the Administration of Oaths of Office, which was read the first time.

Mr. Speaker reported, that, when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a Speech to both Houses of Parliament, and to prevent mistakes, he had obtained a copy, which is as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

Since you met in Special Session in the autumn of last year, there has been a further deterioration in the international situation. The intervention of Chinese forces in active opposition to the United Nations forces in Korea has increased the danger of a general conflagration.

So far the efforts to achieve a peaceful settlement in the Far East have not succeeded. While aggression cannot be condoned and will continue to be resisted, it is the view of my Ministers that the door to negotiation at any time a cessation of hostilities in Korea can be arranged must be kept open.

The increased menace in the Far East reinforces the mounting evidence that Communist imperialism is determined to dominate the world by force or the fear of force, and that the only hope of maintaining peace with freedom lies in the rapid increase of the combined strength of the free nations. It is equally important that the free nations should make it abundantly clear that they have no aggressive designs and that they are resolved to aid in constructive endeavours to improve the standards of human welfare in under-developed countries.

My Ministers have endeavoured to uphold these international objectives in the deliberations of the United Nations, at the recent meeting of the Prime Ministers of the Commonwealth countries, and in our diplomatic relations with all nations and governments.

Units of the Royal Canadian Navy and the Royal Canadian Air Force have shared from the outset in the United Nations action in Korea. One battalion of the Canadian Army Special Force is now in Korea, and the rest of the force is at Fort Lewis, Washington, where it is available for service in Korea or for other employment in discharge of our international obligations.

Progress has been made in the organization of an integrated force in Europe under the North Atlantic Treaty Organization. The Supreme Commander, General Eisenhower, has recently visited Canada to consult with the Government and the Chiefs of Staff. You will be asked early in the session

to authorize Canadian participation in this integrated force as part of our programme for national defence and security. You will also be asked to approve substantially increased expenditures for defence.

The urgent need of the St. Lawrence seaway and power project in relation to the security of this continent is becoming increasingly apparent. It is the view of my Ministers that the Canadian authorities should be kept in a position to co-operate promptly in undertaking construction of the project once affirmative action has been taken by the appropriate United States authorities.

Your approval will be sought for an appropriate Canadian participation in the Colombo plan and in technical assistance to under-developed areas.

The policies of the government are designed to prevent war, but the dangers of the international situation and the magnitude of the defence effort required as a deterrent have, in the opinion of my Ministers, created an emergency situation. You will accordingly be asked to approve legislation vesting in the Governor in Council additional powers to ensure adequate defence preparations to meet the present emergency and to prevent economic dislocation resulting from defence preparations.

You will also be asked to approve a Bill to establish a Department of Defence Production to act as a procurement agency for the defence forces of Canada and also for such defence requirements of our allies as may be met from Canadian production.

Amendments to legislation relating to the armed forces will also be submitted for your approval.

Legislation will be submitted respecting the application of the benefits of the Veterans Charter to members of the Special Force. Amendments will be introduced to legislation concerning pensions for veterans and their dependents to relieve difficulties being experienced by certain groups of pensioners provided for thereunder.

Appropriate amendments to the Canadian Citizenship Act will be introduced to prevent the retention of Canadian citizenship by persons who have renounced their allegiance or shown by their conduct that they are not loyal to Canada.

The high level of employment and production within our country give our people increased capacity to meet the demands of national and international security.

The spirit of unity so happily reflected in the conferences between the Federal and Provincial Governments is further evidence of our ability to make an effective national response to the emergency.

Proposals were laid before the provincial governments for new tax agreements and for a contributory old age pensions programme along the lines recommended by the Joint Committee at the last regular session.

The provincial governments are at present giving consideration to these proposals and to proposals for constitutional amendments which may require to be submitted to you before the close of the present session.

You will be asked to consider measures respecting federal grants to municipalities in lieu of taxation of Crown property, the abolition of the requirement of the fiat in the case of Petitions of Right, and the bequests of Laurier House and Kingsmere.

You will also be asked to consider a complete revision of the Indian Act and the Consolidated Revenue and Audit Act.

Other measures to be introduced will include amendments to the Immigration Act, the Post Office Act, the Central Mortgage and Housing Act, the Gold Mining Assistance Act and the Customs Act.

It is anticipated that the reports of the Royal Commissions on Transportation and on National Development in the Arts, Letters and Sciences will become available during the course of the session.

Members of the House of Commons:

You will be asked to make provision for national defence and the meeting of our obligations under the United Nations Charter and the North Atlantic Treaty, as well as for all essential services.

Honourable Members of the Senate:

Members of the House of Commons:

May Divine Providence bless your deliberations and give to our people the fortitude and patience to sustain the trials of these troubled times.

On motion of Mr. St. Laurent, it was ordered,—That the Speech of His Excellency the Governor General to both Houses of Parliament be taken into consideration on Wednesday next, and that, unless and until otherwise ordered, this Order have precedence over all other business except Introduction of Bills and Government Notices of Motions until disposed of.

On motion of Mr. St. Laurent, a Special Committee was appointed to prepare and report, with all convenient speed, lists of Members to compose the Standing Committees of this House under Standing Order 63, said Committee to be composed of Messrs. Fournier (Hull), Claxton, Casselman, Shaw and Weir.

Mr. St. Laurent delivered a Message from His Excellency the Governor General, which was read by Mr. Speaker, as follows:—

ALEXANDER OF TUNIS:

The Governor General transmits to the House of Commons a certified copy of an approved Minute of Council appointing the Honourable Alphonse Fournier, Minister of Public Works, the Honourable D. C. Abbott, Minister of Finance, the Honourable J. J. McCann, Minister of National Revenue and the Honourable F. G. Bradley, Secretary of State of Canada, to act with the Speaker of the House of Commons as Commissioners for the purposes and under the provisions of Chapter 145 of the Revised Statutes of Canada, 1927, intituled: "An Act respecting the House of Commons".

He also laid before the House,—Copy of Regulations made under the Department of Veterans Affairs Act. (English and French).

Also,—Copy of Regulations made under The Canadian Forces Act, 1950. (English and French).

Also,—Statement *re* Regulations made under The Veterans' Land Act, 1942. (English and French).

Also,—Statement *re* Regulations made under the Soldier Settlement Act. (English and French).

And also,—Copy of Regulations made by the Army Benevolent Fund Board, as required by Section 12 of the Army Benevolent Fund Act, 1947. (English and French).

Mr. Speaker presented the Report of the Librarians of Parliament which is as follows:—

To the Honourable the Speaker of the House of Commons:

The Joint Librarians of Parliament have the honour to submit their Report for the year 1950.

The Supplementary Catalogue of books donated, purchased, deposited under the Copyright Act, and obtained through intergovernmental exchange of documents during the year is in the hands of the printers.

The Joint Committee on the Library of Parliament met on Tuesday, May 23, 1950. The Committee recommended:

1. That the necessary steps be taken to erect a library building for the National Library, in which could be stored all books surplus to the needs of the Library of Parliament; and that in the meantime the Department of Public Works be requested to provide space for the storage of such books.
2. That the Civil Service Commission be requested to increase the establishment of the Library of Parliament by the addition of two positions: (1) Cataloguer (English), as from January 1, 1950, to be filled by Miss Florence Moore, at present Librarian Grade I, Library of Parliament; (2) Librarian Grade II (French).
3. That the sum of \$1,000 be provided annually in the estimates for the microfilming of old and valuable newspapers and periodicals in order to complete the bound files in the Library.

The last two recommendations have been carried out. The Civil Service Commission has filled the position of Librarian Grade II (French) by the appointment of Mr. Guy Forget.

The superannuation of Mr. Joseph Tarte, Chief Reference Clerk, has resulted in several changes in the personnel of the Library. The Civil Service Commission has appointed Mr. T. E. Monette as Chief Reference Clerk, Mr. L. W. Lusignan as Reference Clerk, Mr. L. O. H. Tarte as Cataloguer, Mr. Bertrand Poulin as Clerk of Periodicals and Mr. Jean-Marie Scantland as Clerk Grade 3. All these employees, except Mr. Scantland, had been on the staff of the Library for some years.

On May 8 last a few panes of glass in the dome of the Library were broken during a windstorm, and the Public Works Department decided as a safety measure to remove all sixteen windows, and these were replaced by wood-board panels painted green. This not only affects the lighting in the main rotunda but gives a rather unsightly appearance to the Library as viewed from both inside and outside. It is hoped that the Public Works Department will replace these windows when spring comes.

On July 6 last a heavy storm opened a seam in the roof of the Library, allowing water to damage a large number of books. Nothing has been done to repair this defect.

The problem of placing some fourteen large card cabinets on the main floor of the Library has been solved by removing part of the old "Ring" and arranging the cases there. This will provide adequate accommodation for catalogue cards for many years to come.

The bindery of the Library has been enlarged and improved.

The Canadian section has also been re-arranged along more modern lines.

Respectfully submitted,

FRANCIS A. HARDY
FELIX DESROCHERS
Joint Librarians.

LIBRARY OF PARLIAMENT,
Ottawa, January 30, 1951.

Mr. Speaker also laid before the House,—Report of the Chief Electoral Officer on By-elections held during the year 1950, pursuant to sub-section 6 of Section 56 of the Dominion Elections Act, 1938. (English and French).

The House then adjourned at 4.05 o'clock, p.m., until tomorrow at three o'clock, p.m.

No. 33

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 15TH MARCH, 1951.

PRAYERS.

Mr. Speaker laid on the Table of the House,—Report respecting a Voice Amplification System for the Chamber of the House of Commons, which Report is as follows:—

For some time Members of this House, together with members of the Press Gallery, have complained about the difficulty in hearing speeches by Members who are seated some distance from them. When I was in Europe last fall I visited the seats of government in Italy, Switzerland, France and the United Kingdom, to ascertain what system of amplification was being used in the assemblies of these countries and its effectiveness. I found in Italy, Switzerland and France that Members speak from a rostrum. That is to say, the Member who is speaking goes either to a central microphone or to one of several microphones in the chamber.

The installation of an amplification system under such circumstances is a relatively simple matter, but it could not be adapted to our Parliament. Our system is based on the British System, of Government and Opposition facing each other, and where Members speak from their seats as and when permitted by Mr. Speaker. I was, therefore, particularly interested in the Voice Reproduction System which has been installed in the Chamber of the British House of Commons. I was informed that the fundamental principle behind the system in the British House is to diffuse sound from miniature loud-speakers at a sound level not greater than that at which a listener will hear if he is within a few feet of the Member who is speaking. This is accomplished by microphones suspended over the benches in the Chamber and by loud-speakers placed in the backs of the benches. There are, in all, fourteen microphones. Six of these microphones, at approximately equal intervals, are suspended from the ceiling of the Chamber. These are placed just above the front benches of the Government and the Opposition at a height of approximately eight and a half feet above floor level. The remaining seats in the House are served by eight microphones, four on each side of the Chamber suspended into the Chamber on rods which

are attached to the lower part of the galleries. In addition to these microphones there is a microphone overhead in the canopy of the Speaker's Chair, and also a microphone on the Table. The loud-speakers are placed at the top of the backs of the Members' benches, and also at the top of the backs of the benches in the galleries at intervals of about four feet. These loud-speakers are circular in shape, and are quite small, having a diameter of about 3 inches.

The system is controlled by an operator who is outside the Chamber but has a complete view of the Chamber. When a Member rises to speak he switches the microphone located nearest to the Member. The loud-speakers,—or, as they may more appropriately be called, the voice reproduction units,—close to the Member who is speaking are muted, as here, naturally, he can be heard quite well without the need of the reproduction units. In the adjacent zone the units are partially muted, whereas all the rest reproduce at the level required.

While I was at Westminster the officials of the House very generously gave me of their time in explaining the system to me, and I am especially grateful to Dr. Oscar Faber, O.B.E., the consulting engineer, and to Mr. N. Sizer, M.B.E., the assistant chief engineer of the Ministry of Works, for their kindness and for their patience.

Upon my return to Canada, with the consent of the Prime Minister (Mr. St. Laurent) and the Minister of Public Works (Mr. Fournier), I invited Mr. Sizer to come to Canada in order that I could get his opinion as to whether a similar system could be adapted to our Chamber. Mr. Sizer, with the whole-hearted approval of the British Minister of Works, came to Canada at the end of January and was here for about a week, during which time he consulted with the chief architect and the assistant chief architect and other officials of our Department of Public Works, and also with Dr. Field, of the Defence Research Department. He also made a careful inspection of the Chamber, both generally and in detail, and on a number of days was present in our Chamber when the House was in session.

Before leaving Canada he was good enough to leave with me a report on his observations, in which he says, in part, that he could see no reason why a system similar to the system now in operation at Westminster would not prove as satisfactory in Canada, and that such a system could be designed on similar lines for our Chamber. I also have a report from Dr. Faber, the consulting engineer, and an additional report from Mr. Sizer, which they gave me when I was in England. Mr. Sizer left with me and our departmental officials a number of photographs, together with one of the microphones and one of the loud-speakers.

May I also say that the Chief Architect's Branch of our Department of Public Works, in conjunction with Dr. Field, of the Defence Research Department, has considered the installation in our Chamber of a low-level system similar to the one which I have described. The officials of these two departments, I am pleased to say, are very well informed on this system of amplification, and believe that it can be installed so as not to cause any objectionable features from a decorative point of view.

I am satisfied from the investigations that have been made that the only amplification system which would be generally acceptable to the Members of our House is one similar to the system now in operation at Westminster. I would not want to ask Members to accept my recommendation, nor would I want to assume the sole responsibility for any system that is installed. It has occurred to me that it might be advisable for the House to appoint a committee to examine, in more detail, the system in the British House. I would be pleased to put at the disposal of the committee the reports, photographs and equipment which I have mentioned, together with any other information which may be available.

I trust that the information which I have obtained will be of assistance in determining the system of amplification which may be approved, and I can assure Honourable Members that I shall be pleased to give whatever assistance I can in this regard.

STATEMENT BY MR. SPEAKER

Mr. SPEAKER: The question of the proper time at which to make the motion (to adjourn the House under Standing Order 31) was discussed briefly in the House on November 7, 1949. At that time I pointed out that in my opinion the proper time to make this motion was immediately before Notices of Motion or Orders of the Day. I have considered the matter since that time and am of the opinion that if it had been the intention of Parliament when this rule was introduced that the motion should be made immediately after Routine Proceedings, the rule would have stopped there. That is to say, it would have read:

Leave to make a motion for the adjournment of the House (when made for the purpose of discussing a definite matter of urgent public importance) must be asked after the ordinary daily routine of business.

But the rule Parliament approved went further and added:

. . . and before notices of motions or orders of the day are entered upon.

It is clear that the motion is made after the daily routine of business. In my opinion it is equally clear that it should be made immediately before Notices of Motion or Orders of the Day.

I believe that the reason why the rule was drawn in this way was to make sure that all the business of the House which was not of a controversial nature would be duly attended to. Honourable Members know that in the daily routine of business there is little that is debatable. Under Questions there is nothing that is debatable. Again under Notices of Motion for the production of papers, there is nothing that is debatable. That is the kind of business which must be disposed of.

I therefore rule that the motion to adjourn the House under Standing Order 31 must be made after the ordinary daily routine of business has been concluded and immediately before Notices of Motion or Orders of the Day are entered upon.

Mr. Drew, from his place in the House, asked leave under Standing Order 31 to move the adjournment of the House for the purpose of discussing a definite matter of urgent public importance, and stated the subject to be:—

“the announcement yesterday of the greatest monthly increase in Canadian cost of living during the month of February to the disastrously high level of 179.7 points;

And the urgent need for vigorous action by the government and the immediate adoption of such measures as will halt inflation, hold down the cost of living and restore confidence in the Canadian dollar”.

Mr. Speaker ruled the proposed motion out of order on the ground that the matter was not one of urgency within the meaning of Standing Order 31(3) in view of the undertaking by the Minister of Public Works to move that the House resolve itself into Committee of Supply as the first order of business on Monday next.

The House resolved itself again into Committee of Supply and progress having been made and reported, the Committee obtained leave to sit again at the next sitting of the House.

OTTAWA, MONDAY, 23RD APRIL, 1951

PRAYERS.

Mr. MacLean (Cape Breton North and Victoria), from the Standing Committee on Standing Orders, presented the First Report of the said Committee, which is as follows:—

Your Committee submits its findings and recommendations in respect of the following petitions for Private Bills presented after the six weeks allowed under Standing Order 92.

1. Industrial Loan and Finance Corporation:

The object of this petition is to change the name of the Corporation to "Community Finance Corporation". Representations were made to your Committee that as a result of the increasing confusion between the present corporate name of the petitioners and that of "Industrial Acceptance Corporation", it was desirable in the best interests of all concerned that such confusion be removed by applying for the necessary legislation at the present session.

2. John Brock Short (Divorce):

The evidence was obtained too late to have the petition presented within the stipulated time. Representations were made to the effect that the financial means of the petitioner, together with the absence of the respondent, would make it extremely difficult for the petitioner to reinstitute proceedings next session.

3. Helen Marion Peacock Rondeau (Divorce):

The evidence was not available until April 1st. The petitioner is unemployed and would be subject to continued hardship if her application were further delayed.

4. The Ukrainian Catholic Episcopal Corporation of Saskatchewan:

The diocese sought to be incorporated comprises the Province of Saskatchewan and those areas of the Northwest Territories lying immediately north of the said province. It is deemed desirable by the petitioner to be incorporated without delay in the best interests of the temporal affairs of the diocese, notwithstanding the fact that the authority required from Rome was received too late to permit of presenting a petition within the first six weeks of the session.

5. Flora Muriel Crane Keané (Divorce):

The alleged offence occurred on March 16, four days after the time allowed for the presentation of petitions had expired. The petitioner is obliged to maintain herself; and representations made to your Committee are to the effect that, as a result of her domestic situation, her health has suffered to such an extent that she is in danger of losing her employment.

Your Committee recommends that Standing Orders 92 and 93(a) and (c) be suspended in relation to each of the above petitions and that they be read and received.

6. Eva Lubin Greenfield (Divorce):

The Parliamentary Agent for the petitioner having requested leave to withdraw this petition, your Committee recommends accordingly.

Mr. Fournier (Hull), a Member of the King's Privy Council, laid before the House, by command of His Excellency the Governor General,—Report of the Board of Trustees of the National Gallery of Canada for the fiscal year ended March 31, 1950. (English and French).

The following Questions on the Order Paper were passed by the House as Orders for Return, under subsection 4 of Standing Order 44, and Orders of the House were issued to the proper officers accordingly:—

By Mr. Coyle:—1. What was the total amount paid in taxes on tobacco in each of the years 1947, 1948, 1949 and 1950?

2. Of these amounts, how much was paid on (a) flue-cured tobaccos; (b) other kinds?

3. During each of these years, what amount of tobacco was exported?

4. To what countries was it exported and what amount to each?

5. What was the value of the exports to each country?

By Mr. Harkness:—1. How many new employees will the new Government Printing Bureau plant have?

2. How many employees are on the present staff of the Printing Bureau?

3. (a) Where will the Bureau secure its new employees?

(b) Does it propose to train them, or depend upon hiring workers from private plants?

4. How do Bureau rates of pay compare with commercial scales elsewhere?

5. Is it proposed to have sufficient employees to meet Government printing at times of peak requirements?

6. If so, what will the Bureau do with surplus personnel during slack periods?

Mr. Bradley, a Member of the King's Privy Council, presented,—Return to the foregoing Order forthwith.

The following Order of the House was issued to the proper officer:—

By Mr. Diefenbaker:—Order of the House for a Return showing a list of all (a) real property; (b) buildings, sold or disposed of by War Assets Corporation to the value of \$25,000 or more between the first day of January, 1946 and the first day of April, 1951, and the names and addresses of the persons to whom such sales, or disposal, were made.

Mr. McIlraith, Parliamentary Assistant to the Minister of Defence Production, presented,—Return to the foregoing Order forthwith.

The House then resumed the adjourned Debate on the proposed motion of Mr. Abbott: That Mr. Speaker do now leave the Chair for the House to resolve itself again into Committee of Ways and Means, and on the proposed motion of Mr. Macdonnell (Greenwood), in amendment thereto, and on the proposed motion of Mr. Coldwell, in amendment to the said proposed amendment.

And the Debate still continuing; the said Debate was, on motion of Mr. Fulton, adjourned.

The House then adjourned at 10.55 o'clock, p.m., until tomorrow, at three o'clock, p.m.

(Private Bills)

The Bill No. 117 (Letter L-1 of the Senate), intituled: "An Act to incorporate Canadian-Montana Pipe Line Company" (as amended by the *Standing Committee on Railways, Canals and Telegraph Lines*), was again considered in Committee of the Whole, reported without further amendment, considered as amended, read the third time and passed, as so amended.

And the Debate continuing;

Mr. Herridge, seconded by Mr. Gillis, moved in amendment thereto: That Bill No. 118 be not now read a second time but that it be resolved that in the opinion of this House further consideration of this Bill should be deferred until the House has been assured that the route of any pipe line built by the proposed company will be laid out so as to serve Canadian requirements before any such pipe line leaves Canadian soil.

And a Debate arising thereon; the said Debate was, on motion of Mr. Hodgson, adjourned.

The hour devoted to Private and Public Bills having expired;

"the proposals of the Minister of Finance are unsatisfactory because they will inevitably increase the cost of living for all and especially for those least able to bear it.

This House condemns in particular as inflationary the increase by 25 per cent of the General Sales Tax and is of the opinion that the increase is unnecessary and unwise.

This House further condemns the heavy increase in excise taxes on certain essential commodities and is of the opinion that much of the Government's proposed huge increase in taxation is due to its own extravagance.

This House regrets the failure of the Government to take effective steps to deal with profiteering".

And on the proposed motion of Mr. Coldwell, seconded by Mr. MacInnis, in amendment to the said proposed amendment:—That the amendment be amended by adding thereto the following words:

"This House further regrets the failure of the Government to exempt from the proposed 20 per cent defence surtax the incomes of single persons up to \$1,500 and the incomes of married persons up to \$3,000".

And after still further Debate, the question being put on the said proposed amendment to the proposed amendment; it was negatived on the following division:—

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, WEDNESDAY, 25TH APRIL, 1951

PRAYERS.

Mr. Cleaver, from the Sessional Committee on Railways and Shipping owned, operated and controlled by the Government, presented the Third Report of the said Committee, which is as follows:—

Pursuant to the Orders of Reference of the House of April 10, 1951 and April 11, 1951, this Committee had before it for consideration the following:—

1. The Annual Reports for 1950 of the Canadian National Railways System, the Canadian National (West Indies) Steamships Limited, and the Auditors' Report to Parliament in respect of the Canadian National Railways System and the Canadian National (West Indies) Steamships Limited.

2. The Annual Report of the Trans-Canada Air Lines for the year ended December 31, 1950, and the Auditors' Report to Parliament for the year ended December 31, 1950 in respect to Trans-Canada Air Lines.

3. The Annual Report of the Canadian National Railways Securities Trust for 1950.

4. The Budget of the Canadian National Railways and the Canadian National (West Indies) Steamships Limited, for the calendar year 1951.

5. Vote 493—Prince Edward Island car ferry and terminals—deficit.

6. Vote 495—Canadian National (West Indies) Steamships Limited—deficit.

7. Vote 501—Maritime Freight Rates Act—payment of twenty per cent reduction in tariff of tolls to Canadian National Railways and other railways operating in territory fixed by the Act.

Your Committee held nine meetings, during which the above-named matters were considered and evidence adduced thereon.

The Annual Report of the Canadian National Railways for 1950 discloses a net income of \$42,416,772.00, however, interest on the Funded Debt due to the public amounted to \$24,019,158.00, and interest on Government loans amounted to \$21,658,849.00 bringing about a deficit of \$3,261,235.00. The Annual Report was adopted, but your Committee recommends that the earliest possible action be taken on the reorganization of the capital structure of that system.

The Annual Report of the Canadian National (West Indies) Steamships Limited for 1950 discloses a net operating deficit of \$601,432.00, and after payment of interest on bonds and Government advances, there was a total deficit of \$1,028,767.00. The balance in the Vessel Replacement Fund at the end of the year was \$4,313,638.00, and in the Self Insurance Fund \$1,772,458.00. The said Annual Report was adopted.

The Annual Report of Trans-Canada Air Lines for 1950 shows a surplus of \$201,206.00 for the North American Services, and a deficit of \$1,526,412.00 for Trans-Canada Air Lines (Atlantic) Limited. The Annual Report was adopted, but your Committee recommends that in future the financial Budget of Trans-Canada Air Lines, North American Services, and Trans-Canada Air Lines (Atlantic) Limited, for the ensuing year be referred to the Committee to be dealt with along with the Annual Report of Trans-Canada Air Lines. Your Committee noted that progress has been made in research to reduce exhaust noise in North Stars, and hopes that responsibilities of Canadair in connection with the installation of any successful device will be further investigated.

The Auditors' Report to Parliament with respect to the Canadian National Railways System, the Canadian National (West Indies) Steamships Limited, and the Trans-Canada Air Lines, also the Annual Report of the Canadian National Railways Securities Trust for the calendar year 1950, were severally examined and adopted.

The Financial Budgets of the Canadian National Railways and the Canadian National (West Indies) Steamships Limited for the calendar year 1951, were examined and adopted.

The above referred to Votes 493, 495 and 501 were considered and approved, and have already been reported to the House by second report of this Committee, which was presented to the House on April 18, 1951.

The task of your Committee was greatly facilitated by the valuable assistance of Mr. Donald Gordon, C.M.G., LL.D., Chairman of the Board of Directors and President of the Canadian National Railways; Mr. S. F. Dingle, Vice-President, and Mr. T. H. Cooper, Vice-President and Comptroller, Canadian National Railways, and Comptroller, Trans-Canada Air Lines; and Mr. G. R. McGregor, President of Trans-Canada Air Lines.

A printed copy of the minutes of proceedings and evidence taken will be tabled at a later date.

Mr. St. Laurent, a Member of the King's Privy Council, laid before the House,—Summary of Orders in Council passed during the period March 1 to March 31, 1951.

Mr. McCubbin, Parliamentary Assistant to the Minister of Agriculture, presented,—Return to an Address to His Excellency the Governor General, of March 19, 1951 for a copy of all correspondence and telegrams exchanged between the Government of British Columbia, or any minister or department

thereof, and the Federal Government or any minister or department thereof, in reference to the question of federal assistance to certain British Columbia fruit growers, whose trees were destroyed by frost during the winter of 1949-50.

Mr. Benidickson, Parliamentary Assistant to the Minister of Transport, presented,—Return to an Order of the House of April 16, 1951, for a Return showing:—1. How many applications were received from the Canadian Merchant Navy veterans for vocational training as provided by Order in Council 5983, passed on or about the 29th day of December, 1948?

2. How many veterans were accepted for such training?

3. How many were rejected on the ground (a) that they had served on ships of registry other than Canadian; (b) that they had not signed a Manning Pool Agreement; (c) that they were not in receipt of special bonus; (d) that they already had employment or a vocation; (e) for other reasons?

On motion of Mr. MacLean (Cape Breton North and Victoria), the First Report of the Standing Committee on Standing Orders, presented to the House on Monday, April 23, 1951, was concurred in.

The following Questions on the Order Paper were passed by the House as Orders for Return, under subsection 4 of Standing Order 44, and Orders of the House were issued to the proper officers accordingly:—

By Mr. Noseworthy:—1. What financial assistance, if any, was given by the Federal Government to Massey-Harris Company, John Hepburn Company, Dominion Radiator Company and Dominion Bridge Company, during the years 1939 to 1945 inclusive, in the form of subsidies, loans and special depreciation for buildings and equipment?

2. What is the total value of Government contracts awarded to each of these companies during the years 1939 to 1945 inclusive?

Mr. Bradley, a Member of the King's Privy Council, presented,—Return to the foregoing Order forthwith.

By Mr. Catherwood:—1. What countries maintain trade offices in Canada?

2. In what countries does Canada maintain trade offices?

Mr. Lesage, Parliamentary Assistant to the Secretary of State for External Affairs, presented,—Return to the foregoing Order forthwith.

The House then resumed the adjourned Debate on the proposed motion of Mr. Abbott: That Mr. Speaker do now leave the Chair for the House to resolve itself again into Committee of Ways and Means.

And on the proposed motion of Mr. Macdonnell (Greenwood), seconded by Mr. Ross (Souris) in amendment thereto:—That all the words after "That" to the end of the question be deleted and the following substituted therefor:

"the proposals of the Minister of Finance are unsatisfactory because they will inevitably increase the cost of living for all and especially for those least able to bear it.

This House condemns in particular as inflationary the increase by 25 per cent of the General Sales Tax and is of the opinion that the increase is unnecessary and unwise.

‘That Clause 4 of the proposed Resolution be deleted and that the following be substituted therefor:

That it is expedient to introduce a measure to impose taxation on capital gains to the extent of \$16 million so as to maintain the balance of Ways and Means.’

The Chairman ruled that the amendment was out of order on the ground that the tax to be substituted was not sufficiently specific and was irrelevant to the Excise Tax Resolution.

Whereupon, Mr. Knowles appealed from the ruling of the Chairman."

Mr. Fulton having raised, during the division, the Point of Order that an Honourable Member was not in the Chamber when the question was put and therefore should not have voted; and that another Honourable Member had left his seat after Mr. Speaker put the question and while the vote was in process of being taken;

RULING OF MR. SPEAKER

Mr. SPEAKER: First, with regard to the question raised by the Honourable Member for Kamloops (Mr. Fulton); I might say that I will be glad to receive any representations which he may make to me in the House or privately regarding when a Point of Order or a Question of Privilege which has been raised during a division should be considered. I have allowed him to state his Question of Privilege before the vote was announced. I think at least that is proper procedure. I shall take into consideration whether I should have allowed him to continue with his Question of Privilege during the division.

He has referred to the fact that an Honourable Member was not in the House when the question was put. The Honourable Member says that he was in the House when the question was put. We must accept his word for that. However, I should point out that according to Standing Order No. 12 it is irregular for an Honourable Member to move from one place to another or to leave the Chamber while a vote is being taken or before the vote is announced. May I say that from time to time I have noticed that a number of Members have moved from their seats during the voting period. The occurrence tonight was by no means the first time that it has taken place. I know all members of the House would appreciate it if Honourable Members would be in their own seats during the vote and would remain in their seats until the result of the vote is announced.

The Committee of Ways and Means then resumed, and further progress having been made and reported, the Committee obtained leave to sit again at the next sitting of the House.

And it being after eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, it being then five minutes past eleven o'clock, p.m., until tomorrow at three o'clock, p.m.

INCOME TAX ACT

Resolved, That it is expedient to introduce a measure to amend The Income Tax Act and to provide, amongst other things:

1. That, in respect of income earned after the commencement of the 1951 calendar year, a corporation shall pay a defence surtax for the year equal to 20 per cent of that portion of its ordinary income tax for the year that is computed at the 38 per cent rate, or the 33 per cent rate if applicable, (before allowance is made for tax credits) subject to a right to a refund of such tax to the extent that it would reduce the corporation's taxable income after payment of ordinary income tax to an amount less than 5 per cent of this capital employed.

2. That an individual shall pay a defence surtax equal to

(a) for the 1951 taxation year, 10 per cent and

(b) for each subsequent taxation year, 20 per cent of his ordinary income tax (including investment surtax) for the year before allowance is made for tax credits.

3. That, for the purpose of computing income from an office or employment for the 1951 or a subsequent taxation year, there may be deducted certain amounts paid in respect of

(a) travelling expenses that the officer or employee was required by the contract of employment to incur,

(b) professional membership dues where the officer or employee was required by the contract of employment to maintain his professional status,

4. That the Governor in Council be authorized to make regulations under which the income tax of members of the armed forces on their service income will be paid in full in respect of the pay and allowances of each pay period by a deduction therefrom in accordance with a special table subject to the right of any member to file a return on an annual basis.

5. That the right to elect to pay the 15 per cent tax on its undistributed income now enjoyed by a private company

- (a) be extended to all other corporations, and
- (b) be withdrawn, effective April 10, 1951, from a corporation that is controlled by another corporation except in respect of its undistributed income on hand at the end of the 1949 taxation year.

6. That for the 1949 and subsequent taxation years the provision under which the 15 per cent tax rate on the first \$10,000 of income of a corporation applies to only one of several related corporations be amended so as not to include in the class of related corporations those controlled by persons not dealing at arms length unless such persons own shares in the capital stock of both corporations.

7. That for the 1951 and subsequent taxation years, payments made for insulin, cortisone, adrenocorticotrophin (ACTH), liver extract injectible for pernicious anaemia and vitamin B12 for pernicious anaemia purchased under a physician's prescription may be included in the medical expenses for which a deduction from income may be made for the purpose of computing taxable income.

8. That special deductions from income to taxpayers whose principal business is the production, refining or marketing of petroleum or petroleum products or the exploring or drilling for oil or natural gas or mining or exploring for minerals, be allowed for expenses incurred in the 1954 operations on the same basis as for expenses incurred in the operations in the years 1951 to 1953.

2. During each of these years, what was the average wholesale price of (a) Canadian cranberries; (b) imported cranberries?

5. Has there been any change since 1940 in this protection? If so, what is the change?

And a Debate arising thereon;

Mr. Gillis, seconded by Mr. Knowles, moved,—That this Resolution and the subject-matter thereof be referred to the Select Standing Committee on Industrial Relations for investigation and report.

Mr. Speaker ruled the proposed motion out of order on the ground that it is not an amendment to a motion to move that the motion be referred to a Committee; that not more than one question can be before the House at the same time, except in accordance with Standing Order 48; and that under Standing Order 45 notice of a motion such as the one proposed is required.

Mr. Speaker ruled that, while the Parliamentary Assistant did not move the motion, he did speak at the opening of the Debate on behalf of the Minister who moved the motion, and therefore, if he speaks at this time, he will close the Debate.

And after further Debate, the question being put on the main motion; it was agreed to.

The Bill No. 285, An Act to amend The Canadian and British Insurance Companies Act, 1932, was considered in Committee of the Whole, reported without amendment, read the third time and passed.

The hour devoted to Private and Public Bills having expired;

The House then resumed the Debate on the proposed motion of Mr. Fournier (Hull): That Mr. Speaker do now leave the Chair for the House to resolve itself again into Committee of Supply.

And on the proposed motion of Mr. Fulton, seconded by Mr. Drew, in amendment thereto: That all the words after "That" to the end of the question be deleted and the following substituted therefor:

"this House is of the opinion that further consideration should not be given to the proposal to authorize by amendment to the British North America Act an indirect provincial sales tax of three per cent."

RULING BY MR. SPEAKER

MR. SPEAKER: May I say first of all that I raise the question as to whether or not this amendment is in order because I realize, along with the Leader of the Opposition (Mr. Drew), that it is a very important matter. The Leader of the Opposition says that it would be a dangerous precedent not to allow it. I was concerned with whether or not it would be a dangerous precedent to allow it. I do not know to what length members might go in introducing motions of a negative character.

For instance, if this motion is allowed to stand I suppose I could not object to a motion, if an Honourable Member decided to make it, to the effect that further consideration should not be given by this government to bringing in legislation in connection with old age pensions or a means test between 65 and 70. If I allowed this amendment I am afraid I would have to allow a similar amendment.

I realize the importance of this decision, and for that reason I have allowed full discussion of the point of order. I wanted to be very sure that

I was right, and that I was doing an injustice to no one, and I was not establishing a precedent that would not be a sound one.

I made some notes of what has been said. I will not refer to all the remarks that have been made, but may I point out that if this amendment is allowed, would it not have been in order for an Honourable Member to have moved an amendment similar to the one before the House to the effect that at this session further consideration should not be given to a complete revision of the Indian Act? If this amendment is in order then I think an amendment to that extent would have been in order on a motion to go into Supply, because all that is said in the Speech from the Throne regarding the Indian Act is:

“You will also be asked to consider a complete revision of the Indian Act”.

By adopting the Speech from the Throne I take it that the House agreed to consider an amendment to the constitution along the lines referred to in the amendment, should such an amendment be submitted to the House. Might I say also that the question in connection with an amendment of the constitution is not to the effect that the House would amend the constitution; it was not to the effect that the House would amend the Indian Act and the other statutes. The effect of the Speech from the Throne was that the House would give consideration to an amendment of the Indian Act and the constitution, and other matters which are referred to in the Speech from the Throne.

I realize this is an important decision. I have listened carefully to all the representations that have been made and came into the House with an open mind, and after giving careful consideration to what has been said on the Point of Order I am now prepared to make my ruling.

The Honourable Member for Rosetown-Biggarr (Mr. Coldwell) has said that this is a negative motion, and he doubts whether it would be allowed at a public meeting. The amendment anticipates by a negative motion something which may be presented to the House at a later date. In my opinion, by the adoption of the Address in reply to the Speech from the Throne the House indicated its willingness to consider the measures set forth in that speech, particularly:

“The provincial governments are at present giving consideration to these proposals and to proposals for constitutional amendments which may require to be submitted to you before the close of the present session.”

As I have said these constitutional amendments are referred to in the Speech from the Throne and I understand that the proposals for the amendments in the Speech from the Throne were then a matter of public record and related to the proposals in relation to an indirect provincial sales tax.

The present amendment before the House, which would prevent further consideration being given to the sales tax proposal, is, in my opinion, not reconcilable with the earlier decision where by a vote of this House, the House indicated its willingness to consider such a proposal if and when introduced by the government. I therefore rule that the amendment is out of order, because it anticipates by a negative motion something which may be presented to the House at a later date, and as being in conflict with a previous decision of this House.

From this Ruling, Mr. Drew appealed to the House.

And the question being put: Shall the ruling of the Chair be sustained?—
it was decided in the affirmative on the following division:—

OF THE

HOUSE OF COMMONS

OTTAWA, WEDNESDAY, 23RD MAY, 1951

PRAYERS.

A Message was received from the Senate informing this House that the Senate had passed the following Bills, without any amendment:—

Bill No. 289, An Act respecting Laurier House.

Bill No. 290, An Act respecting Kingsmere Park.

Mr. MacLean (Cape Breton North and Victoria), from the Standing Committee on Standing Orders, presented the Second Report of the said Committee, which is as follows:—

Your Committee submits its findings and recommendations in respect of the following petitions for Private Bills presented after the time limit of six weeks allowed under Standing Order 92:—

1. Eugenie Marjorie Ross Finley (Divorce):

The required evidence was secured too late to present the petition within the time limit. Your Committee was also informed that the petitioner receives no support from her husband.

2. Verna Theresa Brisson Humphreys (Divorce):

The petition was drawn up in time for presentation before the expiration of the time limit, but was mislaid by the petitioner's solicitor when moving his files from one office to another. It was made clear to your Committee that the petitioner was in no way responsible for the delay.

3. Kenneth Oliver Frawley (Divorce):

A sworn statement by the petitioner states that he was stricken ill on February 9, 1951, and confined to bed for an extended period. On his instructions, presentation of the petition was withheld by his solicitor.

4. Allan Gowans (Divorce):

The Agent for the petitioner asked leave to withdraw the petition.

5. Marilyn Apple Bogoroch (Divorce):

The Agent for the petitioner asked leave to withdraw the petition.

6. The Missisquoi and Rouville Insurance Company (La Compagnie d'Assurance Missisquoi et Rouville):

The decision to apply for a Private Bill was reached too late to present a petition within the time limit.

7. The Trust and Loan Company of Canada:

Representations made to your Committee indicate that the delay in presenting this petition is attributable to the reorganization of the Company and the consequent consultations involved between London, England, where the head office is now located, and Canada where, under the terms of the present application, it is proposed to transfer the head office.

In relation to the aforesaid petitions, your Committee recommends as follows:

Petitions 1, 2 and 3—That Standing Orders 92, 93 (3) (a) and 93 (3) (c) be suspended and that the said petitions be read and received.

Petitions 4 and 5—That leave to withdraw the said petitions be granted.

Petitions 6 and 7—That Standing Order 92 be suspended and the said petitions be read and received.

Concurrence in the above recommendations will entail a penalty charge of \$300.00 each in respect of petitions 6 and 7.

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, TUESDAY, 29th MAY, 1951

PRAYERS.

STATEMENT BY MR. SPEAKER

MR. SPEAKER: A few days ago the Honourable Member for Rosetown-Biggart (Mr. Coldwell) brought to my attention a practice which is becoming very common in the House of Members rising on so-called questions of privilege. This irregularity has also been brought to my attention by other Honourable Members from time to time throughout the session, and more especially during recent weeks. It has also been the subject of unfavourable comment in the press.

There are only two types of questions of privilege. One affects a Member personally and is a matter of personal privilege and the other is one which affects the privileges of all Honourable Members of the House. It is neither a question of personal privilege nor one which affects the privileges of all Honourable Members to inform the House that an athletic organization or any organization or any citizen or citizens have brought distinction to a Member's constituency by winning a championship. Nor is it a question of privilege to bring to the attention of the House the fact that certain school children or others are in the gallery. No reference should at any time be made to the gallery except on the occasion of the attendance in the gallery of a distinguished representative of another country. It is highly improper at any other time to refer to the gallery. If the practice continues, either of referring to championship teams or to school children in the gallery, every Honourable Member will feel called upon to do likewise when occasion arises as otherwise he will feel that his constituents may think that he is ignoring them. May I, therefore, suggest to Honourable Members that they refrain in the future from making these references.

There is another matter to which I think reference should be made at this time. It is with respect to the procedure regarding the asking of questions.

I would refer Honourable Members to Standing Order No. 44. This Standing Order provides for the placing of questions on the Order Paper, which is the usual procedure, and should be followed whenever possible.

It has nevertheless been the practice in our House to allow a certain number of oral questions and it is not my purpose to discourage Members from asking questions of the proper type as I feel that these questions create a more lively interest in the business of the House. These oral questions are asked when the Orders of the Day are called and are frequently asked without notice. I would however emphasize that these oral questions should be asked only in connection with very urgent and important matters of public concern and only if it would not be in the public interest to place them on the Order Paper and receive answers in accordance with the method provided for in the Standing Orders. They should always be brief. No debate is permitted and the reply should be as concise as possible. The questions should not be prefaced by the reading of letters, telegrams, newspaper extracts or preambles of any kind. (See Beauchesne's Third Edition, Paragraphs 297, 298). I ask the co-operation of Honourable Members in observing these rules.

While I am making these references may I also take the opportunity of thanking Honourable Members for the co-operation which they have given me in my endeavour to enforce the rule which prohibits the reading, by private members, of previously prepared speeches. On February 20th of this year I reminded Honourable Members of the rule and for a short time it was very generally observed. However, during the debate on the budget a very considerable number of Members reverted to the undesirable practice of reading their speeches. The reading of long speeches, especially by private members, would not be tolerated at Westminster, and, I might point out, that we would be required to follow the usages and customs of the British House if our Standing Orders did not prohibit the reading of speeches. The House of Commons is not a debating society nor an assembly which is gathered together to listen to the reading of essays. It is a forum where Members may express themselves freely in accordance with the established rules on all matters of public interest. I believe that during this Session fewer speeches have been read than in former Sessions but I am very hopeful that the practice of reading speeches, except in the case of Government statements or important statements by the Leader of the Opposition or by leaders of other groups, will be wholly discontinued.

A Message was received from the Senate informing this House that the Senate had passed the following Bill, without any amendment:—

Bill No. 291, An Act to amend The Government Employees Compensation Act, 1947.

Also,—A Message informing this House that the Senate had passed the following Bills, to which the concurrence of this House was desired:

No. 94

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, TUESDAY, 19TH JUNE, 1951

11 o'clock, a.m.

PRAYERS.

Mr. Speaker informed the House that the Clerk had laid on the Table the Fortieth Report of the Examiner of Petitions for Private Bills, as follows:—

Pursuant to Standing Order 99, Section 2, the Examiner of Petitions for Private Bills has the honour to present the following as his Fortieth Report:—

Your Examiner has duly examined the following petition for a Private Bill, and finds that all the requirements of the 95th Standing Order have been complied with:—

Of The Trust and Loan Company of Canada, for an Act to amend its Act of incorporation.

Mr. Speaker, from the Special Committee appointed to consider the matter of an Amplification System for the House of Commons, presented the Report of the said Committee, which is as follows:—

Your Committee has considered types of installation used by other Parliamentary bodies and has come to the conclusion that a sound reinforcing system similar to the one which is installed in the House of Commons' Chamber in the Houses of Parliament in London, England, known as a low level system would be the most suitable for our Chamber.

This system is designed specifically so as to make it possible for every one in the Chamber to hear any Member who may be speaking, and to have his voice reproduced in all sections of the House at the same level as the speaker's natural voice.

The conclusion which has been reached by the Committee for the installation of this system in our Chamber is in accordance with the opinion expressed by government officials who are recognized specialists in this type of work.

Also the Assistant Chief Engineer of the Ministry of Works in the United Kingdom has inspected this Chamber and has reported favourably as to the use of a similar system.

The Committee was informed that in the British House the equipment is on an annual rental basis operated by trained employees of the company, and that it has been found advantageous. The company renting the equipment is under contract to keep it in proper working order at all times, to replace any parts which may give out or need replacement, and to install improved equipment as, if and when it comes on the market. In other words, the company is required to keep and to operate the whole installation at peak performance at all times at its own expense.

Your Committee, therefore, recommends that a sound reinforcing system similar to the one in the House of Commons' Chamber at Westminster should be installed in our Chamber and that appropriate action be taken accordingly.

By leave of the House, Mr. St. Laurent, seconded by Mr. Drew, moved,—That the said Report be now concurred in.

And the question being put on the said motion; it was agreed to.

Mr. St. Laurent, a Member of the King's Privy Council, laid before the House,—Copy of an Agreement between the Parties to the North Atlantic Treaty regarding the Status of their Forces. Signed in London on June 19, 1951. (Treaty Series 1951).

5. At what rate are (a) salaries or wages; (b) sustenance; (c) mileage; (d) other allowances, paid to common labour, foremen, all other employees, under this Act?

And a Debate arising thereon;

Mr. Blackmore, seconded by Mr. Low, moved in amendment thereto: That Bill No. 381 be not now read a third time, but that it be referred back to the Committee of the Whole, with instructions that they have power so to modify the Bill that:

1. The building of houses for Canadians shall depend upon the need of Canadians for houses, and their desire and willingness to build houses, limited only by the availability of Canadian resources, material and human, requisite for building houses;

2. The availability of financial assistance for building houses shall be governed, not by the willingness or unwillingness of mortgage companies or other lending agencies to lend upon certain terms, but shall be governed by the credit of Canada, the result being that money shall be created and advanced by the Bank of Canada to prospective builders for as long a period as thirty years, if need be, and at interest rates not exceeding one per cent per annum or at most actual cost.

RULING BY MR. SPEAKER

MR. SPEAKER: I doubt whether this amendment is in order on third reading of the bill. I would refer Honourable Members to Beauchesne's Third Edition, paragraph 710, part of which I shall read:

"The question for the third reading is put immediately after the report from the Committee of the Whole. All amendments which may be moved on a second reading of a bill may be moved on the third reading with the restriction that they cannot deal with any matter which is not contained in the bill".

I shall also read paragraph 711:

"When a motion is made 'that the Bill be now read a third time', the same kind of amendments are permissible as on the second reading, i.e., amendments postponing it for three or six months".

Paragraph 1 of the amendment deals with a matter which, in my opinion, is not contained in the bill. According to the reference which I have read, the amendment must be within the scope of the bill. The first paragraph is not within the scope of the bill.

As to the second paragraph, on a motion for third reading the bill may be sent back for amendment in any particular; that is, for amendment of any clause or clauses of the bill. But it could not be sent back for amendment in such a way as to alter the whole principle of the bill. In my opinion the second paragraph seeks not only to alter the principle of the amending bill which is now before the House, but also to alter the principle of the main Act. Such an amendment could not be moved in the House on third reading; that is to say, a motion could not be made that the bill be not read a third time, setting forth the reasons given in the amendment.

This being so, in my opinion it could not, on third reading, be sent back to the committee for amendments of this character. Accordingly I must rule the amendment out of order.

After further Debate the question being put on the main motion: That Bill No. 381 (Letter R-12 of the Senate), intituled: "An Act to amend The National Housing Act, 1944", be now read the third time; it was agreed to.

The said Bill was accordingly read the third time and passed.

The Order being read for the second reading of Bill No. 390, An Act respecting Grants to Municipalities;

Mr. Abbott moved,—That the said Bill be now read the second time.

After Debate thereon, the question being put on the said motion; it was agreed to.

The said Bill was accordingly read the second time and ordered for consideration in Committee of the Whole later this day.

By unanimous consent, the House reverted to "Presenting Reports by Standing and Special Committees" under "Routine Proceedings".

Mr. Fournier (Maisonneuve-Rosemont) then, from the Special Committee appointed to study The Dominion Elections Act, 1938, presented the Third Report of the said Committee which is as follows:—

Your Committee has considered certain amendments to the said Act, suggested by the Chief Electoral Officer, and has prepared a draft bill embodying its recommendations.

A copy of the draft of the proposed bill is appended hereto.

Whereupon Mr. Harris (Grey-Bruce), a Member of the King's Privy Council, informed the House, That His Excellency the Administrator, having been informed of the subject matter of the said proposed Resolution, recommends it to the House.

The Order being read for the House to resolve itself into Committee of the Whole to consider a certain proposed Resolution to amend The Judges Act, 1946;

Mr. Garson moved,—That Mr. Speaker do now leave the Chair.

RULING OF MR. SPEAKER

Mr. SPEAKER: When this resolution was first before the House (Wednesday, April 11, 1951) the Honourable Member for Winnipeg North Centre (Mr. Knowles) asked whether it was in order not to set forth the maximum expenditure in a resolution preceding a Bill "for any public aid or charge upon the people".

I have examined Section 54 of the British North America Act and S.O. 60. Neither of these provisions requires in terms that the maximum expenditure be set out in the resolution. Further the citations in Beauchesne's Third Edition do not support the proposition: on the contrary, Citation 439 indicates that the maximum expenditure need not be so specified.

Also, I consulted the Joint Law Clerks, whose duty it is to prepare resolutions of this kind. They have informed me that there have been many instances in the past in which the maximum expenditure was not stated in the resolution, and also that, in their view, it is not always possible to assess the maximum expenditure. In these circumstances I have no alternative but to rule the present resolution to be in order.

At the same time, however, may I draw to the attention of the Honourable Members the following extract from Bourinot's "Parliamentary Practice", Fourth Edition, at pages 404 and 405, which states as follows:

"The cardinal principle, which underlies all parliamentary rules and constitutional provisions with respect to money grants and public taxes is this—when burthens are to be imposed on the people, every opportunity must be given for free and frequent discussion, so that parliament may not, by sudden and hasty votes, incur any expenses, or to be induced to approve of measures, which may entail heavy and lasting burthens upon the country."

This extract suggests to me that it would be desirable, wherever possible to include in resolutions of this character an indication of the expenditure to be incurred, although, as I have said there is no positive legal requirement that this be done.

And a Debate arising on the proposed motion of Mr. Garson: That Mr. Speaker do now leave the Chair; the said Debate was, on motion of Mr. Garson, adjourned until later this day.

The House then resumed the adjourned Debate on the proposed motion of Mr. Harris (Grey-Bruce), for Mr. Bradley: That Mr. Speaker do now leave the Chair for the House to resolve itself into Committee of the Whole on a certain proposed Resolution to amend The Dominion Elections Act, 1938;

And the question being put on the said motion; it was agreed to.

The House accordingly resolved itself into Committee of the Whole to consider the said proposed Resolution.

(In the Committee)

The following Resolution was adopted:—

- (b) the conduct of the Northwest Territories elections; and
- (c) the Canadian Prisoners of War Voting Regulations, 1951.

No. 101

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, WEDNESDAY, 27TH JUNE, 1951

11 o'clock, a.m.

PRAYERS.

Mr. Cleaver, from the Standing Committee on Banking and Commerce, presented the Ninth Report of the said Committee, which is as follows:—

Your Committee has considered Bill No. 398 (Letter W-12 of the Senate), intituled: "An Act respecting The Trust and Loan Company of Canada", and has agreed to report it without amendment.

Mr. Picard, from the Standing Committee on Public Accounts, presented the Third Report of the said Committee, which is as follows:—

On June 22, 1950 your Committee, after reviewing the Auditor General's report for the year ending March 1949, expressed the opinion that steps should be taken to "authorize writing off uncollectible debts that have accumulated up to 1940 in Government accounts".

On May 24 of this year, your Committee was asked by the Department of Finance to give consideration to a report, drafted by a special Interdepartmental Committee, on uncollectible debts due the Crown.

Your Committee elected a subcommittee made up of Messrs. Ashbourne, Croll, Fleming, Johnston, Macdonnell, Major, Picard, Robinson, Sinclair and Stewart, to examine the question and report to it. The subcommittee, having had access to information contained in the interdepartmental report and the detailed schedules attached thereto, and having heard Messrs. S. Rettie and E. O. Landry, respectively Chairman and Secretary of the said Interdepartmental Committee, have communicated their views to your Committee which, after due consideration, begs to report as follows:

The Department of Finance has been concerned for a number of years about irrecoverable debts owing to the Crown and has considered the advisability of writing off these debit balances. The Department of Justice expressed the opinion that such debts could be written off only upon the authority of Parliament.

On August 28, 1947, the Treasury Board, on the recommendation of the Minister of Finance, authorized the constitution of a Committee made up of Messrs. S. Rettie, Chairman, D. W. Mundell, W. C. Haw, A. E. Smythe, members, and E. O. Landry, Secretary; said Committee being requested to examine and report to the "Minister of Finance in respect of all items in 'Deferred Claims Accounts', with the object of submitting to the Treasury Board and finally to the Public Accounts Committee a list of items found to be uncollectible". That Interdepartmental Committee required all departments to submit to it "statements of the outstanding items on their records which were considered not to be collectible and concerning which they were prepared to make recommendations for write-off". It held "35 meetings at which officers from the various departments were questioned or where information secured by letter, telephone or examination of departmental files was brought forward and discussed".

It reported back to the Minister of Finance on May 23, 1950 and its report was subsequently reviewed by officials of the Treasury Board before being submitted to your Committee.

All departments submitted statements to that Interdepartmental Committee and the recommendations of the latter have the full concurrence of all departments concerned. The Taxation Division of the Department of National Revenue is the only one not to have submitted such a list of uncollectible debts as it held that supplying any information of that nature would be a breach of the secrecy requirements imposed by the Income Tax Act. Your Committee has, therefore, been unable to review any accounts owing to the Crown, in the Division of National Revenue, and none are recommended to be written off.

EFFECT OF WRITE OFF

In the opinion of the Department of Justice, "the mere writing off of such debts would not, of course, release the debts as proceedings could at any time be taken by the Crown to enforce the claim unless a statute of limitations applicable to the Crown should bar the claim". Consequently write-off in this report means authorizing the deletion of amounts found to be uncollectible from departmental records.

It appears then that write-off confers no advantage on the debtor. Its chief benefit will be found in the relief afforded the departments from keeping records of and reporting perennially on claims that are considered valueless. Staffs now employed in this non-productive work would be encouraged to make better efforts on current collections.

BASES OF RECOMMENDATIONS

The Interdepartmental Committee having in mind that their recommendations for write-off should relate solely to items that were demonstrably uncollectible established certain standards as the basis of their recommendations. Substantially the debts found to be uncollectible fall into the following groups:

1. Amounts which over a long period of time a department had made efforts to collect without results. This would include cases where the debtor had died, had disappeared or had become bankrupt, or where because of the small amount involved and the length of time elapsed further expense on efforts to collect could not be justified.
2. Amounts remaining unpaid after acceptance of compromise settlement payments.
3. Amounts, usually small, referred by a department to the Department of Justice for collection and returned with the advice that the amount involved did not warrant the prospective cost of action to collect.
4. Amounts, mainly in the nature of claims for damages, in respect of which liability has not been admitted by the party claimed against and where due to lapse of time, dispersal of witnesses, etc. the success of proceedings to collect the claim seemed unlikely.
5. Amounts, representing claims for services rendered to or expenditures on behalf of firms and individuals, where the existence of an enforceable debt due the Crown could not be readily established.

Normally, any amount recommended for write-off in their report has been weighed against these standards and found to conform to one or more of them. However, the Interdepartmental Committee have made recommendations for write-off in respect of groups of claims which on grounds of policy had not been pressed against the debtors and where the capacity of the individual debtor to pay had not been assessed. Claims against soldier settlers on personal covenants given in respect of land purchased and subsequently abandoned and claims against municipalities for aid to civil power are examples.

Your Committee considers the bases for recommendations to write-off arrived at by the Interdepartmental Committee as fair.

The total amount recommended for write-off is \$30,506,622.09.

A summary of the recommendations arrived at by the Interdepartmental Committee follows:

DEPARTMENT OF AGRICULTURE

This Department submitted recommendations amounting in all to \$125,595.19. After discussing the various items making up this total with officers of the Department and the Treasury representative the Interdepartmental Committee concluded that \$97,973.07 could be properly considered uncollectible and referred the remaining items back to the Department suggesting further efforts to collect.

CIVIL SERVICE COMMISSION

The Commission made recommendations on five overpayments of salaries amounting to \$102.84. Strong efforts including reference to the Department of Justice had been made to collect these amounts without success. As the Interdepartmental Committee did not think that the individual amounts involved justified the incurring of legal expenses they have recommended write-off of these items.

DEPARTMENT OF FINANCE

The administration branch submitted a list of items totalling \$96,432.02 of which amount the Interdepartmental Committee have recommended a write-off of \$76,432.02. Included in this amount is \$13,900 representing money advanced in 1808, apparently from Indian funds, to the Earl of Selkirk and secured by mortgage on land situated in Moulton Township, Ontario. Later Indian funds were recouped and the claim accepted by Canada in the settlement with Ontario following Confederation.

Wartime Prices and Trade Board reported on a number of items totalling \$1,218.19 of which the Interdepartmental Committee have recommended a write-off on a total of \$888.19.

The Superannuation Branch submitted a long list of small overpayments made from the Retirement Fund Account during the period 1942-1949 inclusive. These amounts totalled \$2,989.19, of which the Interdepartmental Committee have recommended to write-off \$1,765.78, representing the uncollected balance of overpayments made prior to March 31, 1947.

The Comptroller of the Treasury reported on a number of items totalling \$6,651.33, of which the Interdepartmental Committee agreed to recommend for write-off the sum of \$1,049.34, consisting for the most part of a number of small overpayments of salaries. Included, however, in the sum of \$1,049.34, is an amount of \$334.33, which was actually expended from the appropriations for the former Department of National War Services. When that Department ceased operations, the Comptroller assumed responsibility for these items.

DEPARTMENT OF FISHERIES

This Department submitted four small items, totalling \$39.56, which the Interdepartmental Committee agreed should be written off.

DEPARTMENT OF INSURANCE

This Department submitted recommendations for write-off amounting in all to \$365.28. The claims related to a number of unpaid billings for departmental reports and one unpaid assessment on a defunct insurance company. As the Department had exhausted all reasonable means to collect, the Interdepartmental Committee has accepted their recommendations in full.

DEPARTMENT OF JUSTICE

This Department reported as uncollectible a total of \$1,059.02 consisting of an item of \$30.13 for the sale of Supreme Court Reports to lawyers whose names are now unknown and the balance \$1,028.87 being amounts owing to the Penitentiary Branch for various services and goods supplied. The Interdepartmental Committee considered that these items should be written off.

DEPARTMENT OF LABOUR

Two reports were submitted by the Department, one dealing with losses incurred in the operations of the Department proper and the other relating to the Unemployment Insurance Commission.

The items in the first report total \$5,226.74.

The items in the report from the Unemployment Insurance Commission total \$46,384.82.

The Interdepartmental Committee were satisfied that every reasonable effort had been taken to effect recovery. In view of the large number of items involved and the small amount of each item, the Interdepartmental Committee concluded that further efforts at recovery were impractical, and have accordingly recommended the write-off of these items in total.

FORMER DEPARTMENT OF MINES AND RESOURCES

This Department reported a total of \$220,850.16, of which amount the Interdepartmental Committee have agreed to recommend for write-off the sum of \$210,551.16. Over half of this accrued in the Immigration Branch and represents advances made for repatriation and subsistence to distressed Canadians abroad during the period 1925-45 (\$26,801.26), and the uncollected balance of loans made for transportation from Great Britain to persons destined to domestic work in Canada under the British Empire Settlement scheme during the period 1923-31 (\$117,797.59). These amounts represent the residue after the Department had succeeded in collecting the greater portion of such advances. Efforts to collect have been discontinued, as many of the debtors are dead while others cannot be located.

DEPARTMENT OF NATIONAL DEFENCE

This Department submitted recommendations for write-off amounting to \$1,266,320.28 of which the Interdepartmental Committee accepted \$1,006,605.04 and referred the remainder back to the Department for further efforts to collect.

Claims against municipal and provincial authorities amounting to \$781,636.58 for aid to civil power were included in the Department's recommendations. All have been outstanding for many years, the most recent dating from 1925. The Department, over the years, has made vigorous efforts to collect but with little success. In the one or two instances where suit was entered and judgment obtained nothing was realized under the judgment. The Interdepartmental Committee concluded that although these claims were against existing and apparently solvent organizations and therefore did not fall within their definition of uncollectibles, in the face of refusal by the municipal and provincial authorities to pay, further efforts to collect would be fruitless. Consequently the Department's recommendation has been accepted.

DEPARTMENT OF NATIONAL REVENUE

The Customs Division submitted a list of items totalling \$100,334.75. of which the Interdepartmental Committee have recommended the write-off of \$99,481.06.

The Excise Division reported as uncollectible a total of \$213,523.27 representing an accumulation of arrears of Sales and Excise taxes during the period 1929-1939 which the Department, after making every possible effort, were unable to collect. The debtors in most of these cases went out of business, became bankrupt, or in a few cases, were unable to pay. A number of the items represent balances outstanding after the Department had managed to collect a portion of the debt either by way of compromise or by receipt of dividend through bankruptcy proceedings. The Interdepartmental Committee were satisfied that all effort to collect these items had been exhausted and that there was no point in continuing to carry them in the accounts.

POST OFFICE DEPARTMENT

Items totalling \$27,686.32 were submitted by this Department, and the Interdepartmental Committee agreed that a recommendation to write off all these items was in order.

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY

This Department submitted a list of items totalling \$8,809.61 of which the Interdepartmental Committee have accepted \$7,609.16 for a recommendation for write-off. Some of these accounts date back as far as 1891. In recommending write-off, the Interdepartmental Committee noted that approximately 92 of these cases fell into categories where the debtors were either deceased or bankrupt, the amount and date of the debt did not justify further action at this date or where the records of the Department were insufficient to establish a legal claim.

PRIVY COUNCIL OFFICE

This Department had only one item to report, covering an overpayment of salary of \$17.11. Every effort, other than legal action, had been made to collect without success. As legal action would cost more than the amount involved, the Interdepartmental Committee considered it more practical to recommend write-off of the item.

DEPARTMENT OF PUBLIC WORKS

This Department submitted three separate reports, as follows:

1. The Chief Engineer's Branch reported as uncollectible a total of \$122,149.36, which the Interdepartmental Committee have accepted in total. This amount is made up of miscellaneous arrears of accounts, the bulk of which covers unpaid slide, boom and works due for the period 1861-1891.

2. The Government Telegraph and Telephone Branch (which is presently part of the Department of Transport), reported on a total of \$5,883.26, in respect of which the Interdepartmental Committee have also agreed to make a recommendation for write-off. The bulk of this amount consists of a large number of small accounts in arrears for telephone and telegraph services. The debtors involved have become bankrupt, have died or have disappeared.

3. The Chief Architect's Branch reported a total of \$36,757.33, of which the Interdepartmental Committee have accepted and have recommended for write-off on \$29,603.43. This amount is made up completely of arrears in rentals on living accommodations expropriated by the Department and leased to private tenants. In most of these cases the debtors were unable to pay with no alternative premises at their disposal, in other cases the tenants declined to pay on account of the dilapidated condition of the buildings. The Interdepartmental Committee were satisfied that reasonable efforts were made to collect the most of these accounts and that further efforts would produce very little results.

DEPARTMENT OF SECRETARY OF STATE

This Department reported on items totalling \$171,315.66 in respect of which the Committee have recommended that \$29,682.92 only be written off.

Of the amount not recommended for write-off, \$141,391.54 represents arrears of fees related to naturalization proceedings collected by Clerks of the Courts and refundable by them to the Department after they have retained a maximum of \$2,000.00 per annum. Most of these Clerks have refused to

refund this excess on the grounds that it is consumed in hiring extra help required to handle the larger number of applications received. While there was no doubt that a portion of this amount was uncollectible due to the death, retirement or removal of some of these clerks, the Interdepartmental Committee did not have on hand the details segregating the items falling in this category and consequently could make no recommendations for writing off specific items.

DEPARTMENT OF TRADE AND COMMERCE

This Department submitted a number of items totalling \$42,385.32. The Interdepartmental Committee agreed to recommend the write-off of all these items.

\$37,432.79 of the above amount represents cullers' fees accumulated during the years 1855-1893 in the old Department of Inland Revenue. Cullers were employed and paid directly by the Government; lumber companies, requiring their services in turn paid fees to the Government. In some cases, however, the fees were paid to the cullers who failed to remit the amounts to the Receiver General. In other cases, the lumber companies failed to pay the fees altogether. In view of the lapse of time since the accumulation of these arrears, the Interdepartmental Committee considered that it would now be impossible to collect any portion of this amount.

DEPARTMENT OF TRANSPORT

This Department submitted a list of items totalling \$190,296.19, of which the Interdepartmental Committee have accepted and have recommended for write-off a total of \$179,812.97. The bulk of this amount is made up of old arrears in rental for use of water power, Government wharves and other canal structures. A number of small miscellaneous items such as overpayments of salaries, outstanding advances, sale of publications, under remittances of radio licence fees, etc., make up the balance.

DEPARTMENT OF VETERANS AFFAIRS

This Department submitted recommendations in two groups, one covering activities related to pensions payments and veterans allowances and treatment and the other covering losses sustained through the operations of the Soldier Settlement Board.

The first group was made up of a large number of overpayments of service and disability pensions, veterans allowances, and certain re-establishment expenditures and amounted in all to \$518,445.02. Included in this amount was an item of \$88,005.40 representing cost of vocational training given to Imperial servicemen during the years 1919 to 1923 who were ineligible for training, under British regulations. It appeared to the Interdepartmental Committee that this item was not an enforceable claim against anyone and as any expenditure incurred had already been charged to departmental appropriations there was no necessity for write-off. The Interdepartmental Committee accepted the Department's recommendation in regard to the remaining \$430,439.62.

Total recommendations made by the Department relating to land settlement activities amounted to \$27,869,905.43 of which \$27,857,859.99 were losses sustained on resale of property abandoned by settlers and \$12,045.44 representing minor losses on administration and operating expenditures.

Losses on resales of abandoned properties, because of the provisions of Sec. 22 sub-section 4 of the Soldier Settlement Act in the case of soldier settlers and because of a covenant in the agreements of sale in the case of civilian purchasers, became personal obligations of the original buyers. Thus there are claims against soldier settlers amounting to \$23,506,833.45 and against civilian purchasers amounting to \$2,868,271.22. The number of individuals involved is over 19,000. The Interdepartmental Committee was informed that there has never been any action taken to enforce these claims against either soldier or civilian purchasers. Because of this policy, adopted at the outset of the scheme and pursued down to the present time, the Interdepartmental Committee thought no good purpose would be served by asking for an examination of the solvency of individual debtors. Such an examination would be very incomplete and any attempt to enforce a claim now would be most discriminatory. However, the Interdepartmental Committee cannot say that the whole of these claims are uncollectible. Endorsation of the policy followed is a matter to be determined by the Executive. Subject to such endorsation being given, the Interdepartmental Committee is of the opinion that both groups of claims should be written off.

Losses on resales of lands repossessed from settlers under the British Family Settlement Scheme amounted to \$1,482,755.32. There were no personal covenants attached to the agreements under which these lands were originally purchased and consequently no claims against individuals have arisen. The Interdepartmental Committee accepts without qualification the Department's recommendation that this amount be written off.

Your Committee, from the evidence adduced, is satisfied that the Interdepartmental Committee has studied carefully the circumstances of each case submitted by the various Departments. Although your Committee did not duplicate that work, it came to the conclusion that the recommendations of the Interdepartmental Committee were arrived at in good faith and after considerable study.

Your Committee recommends that the appropriate measures be taken to obtain Parliament's approval of write-off of the sums which the Interdepartmental Committee has considered as uncollectible; such measures to be drafted in such a way that the powers thus conferred be limited by the exact terms of the Interdepartmental Committee's report and to such cases as are included in the eighteen schedules forming part of that report.

Notwithstanding the above recommendation, your Committee is of the opinion that some Departments have, in the period under review, i.e., previous to 1940, shown laxity in the pursuing of collection of such sums due the Crown and that part of these debts might have been collected had the proper efforts been made within a reasonable time of the inception of the debts.

Your Committee is of opinion that the collection of all debts not recommended for write-off by the Interdepartmental Committee be pursued vigorously and reported on yearly, and that a further screening of the debts recommended for write-off be made by the Departments during the present year.

Your Committee has been assured by the witnesses, Messrs. Rettie and Landry, that a more systematic procedure of collection is now followed. The Committee is of opinion that such methods are necessary and that the need to follow closely all accounts be emphasized to departmental officials.

Mr. Winkler, from the Standing Committee on Miscellaneous Private Bills, presented the Thirteenth Report of the said Committee, which is as follows:—

Your Committee has considered Bill No. 394 (Letter V-12 of the Senate), intituled: "An Act for the relief of Marie Elizabeth Rose Ange Cousineau Brousseau", and has agreed to report the said Bill without amendment.

Mr. Fournier (Maisonnette-Rosemont), from the Special Committee appointed to study The Dominion Elections Act, 1938, and amendments thereto, presented the Fourth Report of the said Committee which is as follows:—

Your Committee has held twelve meetings in the course of which it has considered amendments submitted by The Chief Electoral Officer and by members of the Committee.

Your Committee has recommended in its Third Report that the amendments proposed by The Chief Electoral Officer be adopted. These recommendations were reported to the House in the form of a draft bill.

Your Committee further recommends:

1. That Rule thirty-three of Schedule A to section seventeen of the Act be amended by deleting in the seventh and eighth lines thereof, the following words "in the revising officer's revisal district" and substituting therefor "in the electoral district in which the revising officer's revisal district is situated".
2. That Form No. 15 of Schedule One to the Act be amended by changing the word "revisal" to "electoral" wherever it appears in paragraph 1 of the said Form.
3. That section seventeen be amended by adding thereto the following subsection:
(19) Every person who impedes or obstructs an enumerator in the performance of his duties under this Act is guilty of an offence and is liable, on summary conviction, to a fine, of not less than ten dollars and not more than fifty dollars.
4. That the Government give consideration to extending the franchise to certain persons of Doukhobor origin and the advisability of consultation with the Government of the Province of British Columbia in this matter.

No. 102

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 28TH JUNE, 1951

11 o'clock, a.m.

PRAYERS.

A Message was received from the Senate informing this House that the Senate had passed the following Bills, without any amendment:—

Bill No. 286, An Act to amend The Veterans' Business and Professional Loans Act.

Bill No. 287, An Act respecting Benefits for Members of the Canadian Forces.

Bill No. 288, An Act to amend the Pension Act and change the Title thereof.

Bill No. 352, An Act to amend The Veterans Insurance Act.

Bill No. 389, An Act to amend The Returned Soldiers' Insurance Act.

Bill No. 390, An Act respecting Grants to Municipalities.

Mr. Weir, from the Special Committee appointed to confer with Mr. Speaker and with his assistance to prepare and report a list of Members to compose a Select Committee of the House to consider with Mr. Speaker the procedure of this House for the purpose of suggesting any changes that may be desirable to assure the more expeditious dispatch of public business, presented the following report:—

Your Committee recommends that the said Select Committee be composed, together with Mr. Speaker, of the following Members: Messrs. Bradette, Brooks, Fleming, Fournier (Hull), Graydon, Harris (Grey-Bruce), Knowles, MacNaught, Pouliot, Quelch, and Weir.

Your Committee further recommends that five Members will constitute a quorum of the said Committee.

By leave of the House, on motion of Mr. Weir, the said Report was concurred in.

Mr. Cleaver, from the Standing Committee on Banking and Commerce, presented the Tenth Report of the said Committee, which is as follows:—

1. Pursuant to the Order of Reference of the House, dated Monday, May 21, 1951, your Committee has considered the subject matter of the Torquay negotiations, namely, The Final Act of Torquay; The Decisions Agreeing to Accession; the Torquay Protocol to the General Agreement on Tariffs and Trade; the modifications of the Schedules to the General Agreement on Tariffs and Trade resulting from the Torquay negotiations, and the Declaration on the Continued Application of these Schedules.

2. Your Committee has heard the following witnesses:—

Mr. H. B. McKinnon, Chairman of the Tariff Board;

Mr. W. J. Callaghan, Commissioner of Tariffs;

Dr. C. M. Isbister, Director, International Trade Relations Branch, Department of Trade and Commerce;

Dr. E. A. Richards, Principal Economist, Department of Agriculture.

3. Your Committee has also heard and received representations on behalf of the Canadian Importers & Traders Association Inc., through Mr. M. E. Corlett, of Ottawa, Ontario, and was in communication with the Canadian Exporters' Association, the Canadian Chamber of Commerce and the Canadian Manufacturers' Association.

4. The deliberations of the Committee brought out the fact that, while preferences within the Commonwealth were not of any great significance when we have a seller's market, on the other hand, in a buyer's market they have been in the past and could easily again be of vital significance. The Torquay agreement, as was the Geneva agreement, is based upon the principle that no new preferences will be granted and no existing preferences will be widened.

Your Committee recommends that in further trade negotiations with other countries, the Government should follow the existing practice of not narrowing or reducing the margin of preference without receiving in return full and adequate compensation for such action.

Your Committee is of the opinion that further study of the Torquay trade agreement should be made after a sufficient time has elapsed to accurately assess its actual trading results, and with this in view, recommends that the subject matter of the Torquay negotiations should again be referred to the Standing Committee on Banking and Commerce of the House at the 1952 session of Parliament.

5. A printed copy of the Minutes of Proceedings and Evidence adduced is tabled herewith.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 10)

Mr. Picard, from the Standing Committee on Public Accounts, presented the Fourth Report of the said Committee, which is as follows:—

Your Committee reviewed all the items of the Auditor General's report for the year ending March 31, 1950.

Your Committee, during the course of five meetings, heard evidence on the whole of this report from Mr. Watson Sellar, Auditor General. Mr. R. B. Bryce, Assistant Deputy Minister of Finance, attended four of these meetings and was called to give evidence on certain matters.

Your Committee wishes to express its appreciation of the help and co-operation of these officials.

Most of the matters considered for recommendation by the Committee and dealing especially with parliamentary control over Crown Corporations and the regulating of special warrants as a source of authority for expenditures, are covered in Bill 401, the Financial Administration Act, first reading of which was given on June 25th, and your Committee will therefore have further occasion to look into these matters when this Bill is referred to the Committee as has already been announced.

The report of evidence before your Committee concerning the remuneration of electoral officers was forwarded to the Chairman of the Special Committee appointed to study the Dominion Elections Act for any action the said Committee may deem fit to take.

The apportionment, as between the C.B.C. and the International Shortwave Service, of the cost of office space occupied by the latter, as well as the cost of the C.B.C. building in Montreal were considered to be matters that might best be referred next year to the Public Accounts Committee or to a Committee that might be appointed to deal especially with the whole financial aspects of C.B.C. administration.

A copy of the Minutes of Proceedings and Evidence of March 8, 15, 16, 20, and April 4 is appended hereto.

(For Minutes of Proceedings, Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 11)

Mr. St. Laurent, a Member of the King's Privy Council, presented,—Return to an Address to His Excellency the Administrator of June 25, 1951, for a copy of all letters, telegrams, and other communications which, since January 1, 1949, and date hereof, have passed between any Department of the Government of Canada and any official of the Government of Hong Kong, relating to exemptions granted to the Ming Sung Industrial Corporation Limited, under both the Canadian and British Shipping Acts of the said company.

Mr. Picard, from the Standing Committee on Public Accounts, presented the Fifth Report of the said Committee, which is as follows:—

Pursuant to a decision reached at its first meeting, your Committee, after considering the Auditor General's report as previously reported, embarked into the examination of the Public Accounts of the Department of National Defence for the year ending March 31, 1950, totalling \$380,948,197.62. Twenty-two meetings were devoted to this work.

Your Committee heard from the Department of National Defence Messrs. C. M. Drury, C.B.E., D.S.O., E.D., Deputy Minister, and Mr. A. E. Ross, C.M.G., Associate Deputy Minister, and from the Canadian Commercial Corporation, Mr. W. D. Low, O.B.E., Managing Director, assisted by Mr. W. J. Atkinson, O.B.E., General Purchasing Agent and Mr. F. F. Waddell, Secretary and Legal Adviser.

Your Committee wishes to express its appreciation to these officials for their help and co-operation.

The Right Honourable C. D. Howe, Minister for Defence Production, and Minister in charge of Canadian Commercial Corporation during the period under review, 1949-1950, appeared before the Committee on June 19, 1951.

While directed by its Order of Reference to consider the Public Accounts of National Defence for the year ending March 31, 1950, your Committee has received evidence on certain of the department's activities subsequent to this date when this was considered necessary for the better understanding of the situation prevailing during the year under review.

Your Committee first considered a memorandum submitted by the Deputy Minister of National Defence on his department's efforts at controlling expenditures. It dealt more particularly at that stage with the following questions: educational facilities for recruits in both the active and the reserve army; hospital accommodation; medical services; training of the reserve units; equipment and supplies; size of units; army motor transport; construction generally; architects' and engineers' fees; manufacture of airplanes; cost, methods and results of recruiting campaigns, and strength of the reserve force.

Your Committee then proceeded to examine Messrs. Drury and Ross on the items of the Public Accounts for the Department of National Defence contained on pages N-2 to N-54 inclusive, while retaining for further consideration items understood to come more specially within the purview of the Canadian Commercial Corporation. It dealt more particularly at that stage with the following matters:

Air Transport Command, R.C.A.F.; purchases of materials and supplies; purchases of equipment from the Government of the U.S.A.; procurement of tank spares from the Government of the U.S. under the Mutual Defence Assistance Act; advances to the British Admiralty; advances made to Canadair; manufacture of army planes; advisability of making guns in Canada; damage claims; service background, duties, pay and allowances of military, naval and air attaches in Washington; separate family allowances; rental allowances; grants to military associations, institutes and others; Exchequer Court awards; grants to families of deceased employees; pensions and other benefits; payments under Militia Pension Act; allotments, Imperial War Graves Commission; Travel and Transportation, pay and allowances of Army, Navy and Air Force; camp attendance of the reserve force; allotments for active and reserve force; Northwest Territories and Yukon Radio System; Northwest Highway System; allotments Royal Canadian Navy, Reserve and Sea Cadets; acquisition, construction and purchase of properties for Navy; telephone service; allotments Air Force, reserve and cadets; pay and allowances for Air Force; acquisition, construction and purchase of properties for Air Force; engineers' and architects' fees; defence research and development; insurance, pension and guaranty accounts.

On his first appearance before your Committee, Mr. Low described the activities of the Canadian Commercial Corporation, and its policy of establishing prices and awarding contracts by way of competitive "tenders in all cases where it was possible to do so, and to seek out all possible sources of supply irrespective of any consideration except to provide what was needed in the time required and at the lowest possible price".

The witness stated: "In order to carry out this policy, the purchasing division at Ottawa, and each of the thirteen district purchasing offices operated by the Corporation in Canada, maintained complete classified mailing lists showing the names of all suppliers who had requested an opportunity to tender, and any others who were considered to be in a position to manufacture or supply each type of stores or services. These lists were reviewed constantly and kept up to date to ensure the widest possible distribution of invitations to tender in order to obtain the competition necessary to secure low prices.

Tenders for construction projects, the cost of which were in excess of \$5,000, were invited by means of public advertisement in the press. About 95 per cent of the contracts placed by the Corporation were awarded as the result of competitive tenders, and the remainder by direct negotiation".

The witness classified in the following order of preference the four types of contracts negotiated by the Canadian Commercial Corporation: firm price contracts placed as a result of truly competitive tenders; contracts granting cost plus a fixed fee based on a target; contracts providing a ceiling price with a profit limitation; contracts granting cost plus a percentage of profit.

From the evidence, it appears that "during the fiscal year 1949-50 the Corporation awarded 84,600 contracts in all on behalf of the Department of National Defence, the total value being \$221,538,679.59", such contracts being for goods, services and construction.

The Committee examined the witness on different aspects of the memorandum he submitted and more particularly on the following matters: methods of calling for tenders; choice of the successful bidder; advisability of apportioning contracts as between all provinces; purchases in the U. K. and the U.S.; local purchases; choice of engineers and architects and their fees; types, classes and forms of contracts; purchase of coal for Esquimalt; repair work on the Peace River bridge; number of contracts in different price categories; advances to Canadair in connection with the production of F-86 airplanes; advisability of restricting invitation of tenders to areas where goods, services or construction are needed; stockpiling of raw materials; inspection services.

Members of the Committee were asked to submit lists of any contracts on which they wanted particular information and such information as was requested was submitted by the witness.

Your Committee performed a considerable amount of work and covered extensive ground; all witnesses asked for have been heard, all documents requested were produced and no trouble was spared by Messrs. Drury, Low and Ross to satisfy Committee members with detailed answers to their questions.

Your Committee, on the other hand, was not able to go deeply enough into all the detailed accounts of each of the numerous items totalling \$380,948,197.62 to express a definite opinion as to the propriety of all these items of expenditures, or as to the efficiency of all operations performed by these departments, but it is pleased to note that through the evidence adduced and the documents produced, it has found no grounds to cast blame on the Department of National Defence or the Canadian Commercial Corporation, or their officials, on any of the items looked into.

Your Committee was pleased to note also that considerable effort was evidenced on the part of the higher officials of these departments in order to maintain a steady check on expenditures through constant circularizing of their employees to advocate the need for economy, through detailed inspections of works and materials, and through a systematic screening of requisitions at each level of authority.

A copy of the Minutes of Proceedings and Evidence of April 17, 24, 26, May 1, 3, 8, 10, 15, 16, 22, 24, 29, 31, June 5, 7, 12, 19, 21, 26, 27, 28 is appended hereto.

Hon. Ross Macdonald,
Speaker of the House of Commons

Dear Mr. Speaker:

To my very great regret the condition of my health compels me to resign my Seat for Calgary West in the House of Commons.

I trust you will accept this letter as such. According to the best information I have, it is properly signed and witnessed by two Members.

Yours very truly,

Mr. Speaker informed the House that he had received a communication from Mr. P. H. Spaak, President of the Consultative Assembly of the Council of Europe, in which he invites the Canadian Parliament to send observers to the second part of the current session of the Assembly which will open at Strasbourg on October 15th.

Mr. St. Laurent, a Member of the King's Privy Council, laid before the House,—Report of the audit of the accounts of the Federal District Commission for the fiscal year ended March 31, 1951.

Also,—Copy of Statutory Orders and Regulations published in the *Canada Gazette* (Part II) of Wednesday, July 11, 25; August 8, 22; September 12 and 26, 1951, under the provisions of Section 6 of the Regulations Act, Chapter 50 of the Statutes of Canada, 1950 (First Session). (English and French).

Also,—Summary of Orders in Council passed during the period June 1 to September 30, 1951.

And also,—Copies of Orders in Council passed under the provisions of The Emergency Powers Act, Chapter 5, Statutes of Canada, 1951, as follows:—

A Message was received from the Right Honourable Thibaudeau Rinfret, acting as Deputy of His Excellency the Governor General, desiring the immediate attendance of the House in the Senate Chamber.

Accordingly Mr. Speaker, with the House, went to the Senate Chamber where the Right Honourable the Deputy Governor General was pleased to close the Fourth Session of the Twenty-first Parliament of Canada with the following speech:—

Honourable Members of the Senate:

Members of the House of Commons:

The people of Canada, in common with His Majesty's subjects elsewhere, were deeply concerned that the state of the King's health made a surgical operation necessary, and they rejoice at the rapid progress of the King's recovery.

My Ministers are gratified that the world situation did not require the resumption of the Session before the date originally set when you concluded your deliberations in June. The international situation continues nevertheless to give constant concern to the government.

In Korea, despite prolonged discussions, it has not yet been possible to arrange a cease-fire and hostilities are continuing. To this United Nation's action to defeat aggression, our Canadian forces are making an effective contribution.

Since you adjourned, the state of war with Germany has been terminated by proclamation, and normal diplomatic relations have been established with the Federal Republic of Germany. A treaty of peace has been signed with Japan which you will be asked to approve at a forthcoming session.

While hostilities have been confined to restricted areas, the government is convinced that general peace can be assured only by the continued build-up of the combined strength of the free nations.

To this end, My Ministers welcomed the holding in Ottawa of the most recent meeting of the Council of the North Atlantic Treaty Organization. Certain of the recommendations of the Council will require to be considered at a future session.

Arrangements are now under discussion with India and Pakistan for certain projects to be financed from the contribution you approved to the Colombo Plan for Co-operative Economic Development in South and South East Asia.

You also made provision for a Canadian contribution to the United Nations relief and rehabilitation programme in Korea.

At the outset of the session, you enacted a measure to vest in the Governor in Council additional powers which might be necessary to ensure adequate defence preparations to meet the emergency arising out of the present international situation.

The legislation to establish the Department of Defence Production has been implemented and the new department is in full operation.

Agreements are being worked out with the provincial governments to implement the measure you enacted to provide for federal contributions for the payment of old age assistance to those in need between sixty-five and seventy years of age. Registration is being proceeded with for universal contributory pensions to persons over seventy years of age to facilitate administration when the necessary legislation has been enacted.

You also enacted a separate measure respecting allowances for blind persons; as well as several measures extending the benefits of the Veterans Charter, and providing for an increase in pensions to certain groups of veterans and their dependents.

You authorized the provision of grants to universities and equivalent institutions of higher learning.

The requirement of the fiat in the case of Petitions of Right has been abolished.

The Indian Act was completely revised and the new legislation is now in operation. The Post Office Act was also extensively revised.

Other measures were enacted respecting grants to Municipalities; the regulation of consumer credit; the grading of dairy products; the construction of a railway from Sherridon to Lynn Lake in the Province of Manitoba; and the bequests of Laurier House and Kingsmere.

Among other measures, you amended the Canadian Citizenship Act; the Supreme Court Act; the Prairie Farm Rehabilitation Act; the Federal District Commission Act; the Dominion Elections Act; the Judges Act; the Northwest Territories Act; the Yukon Act; the Central Mortgage and Housing Corporation Act; the National Housing Act; the Foreign Exchange Control Act; the Canadian Wheat Board Act; the Emergency Gold Mining Assistance Act; and the Criminal Code.

Your approval was given to agreements between Canada and France, and Canada and Sweden respecting Income Tax and to a convention between Canada and France respecting Succession duties.

Members of the House of Commons:

I thank you for the provision you have made for the public services and for defence obligations on a scale unprecedented in time of peace.

Honourable Members of the Senate:

Members of the House of Commons:

Our people will, I am sure, continue to pray for the complete restoration of the health of the King and for the blessing of Divine Providence upon our nation and the forces of our own and other nations who are striving to maintain the rule of law in the relations between nations.

His Honour the Speaker of the Senate then said:—

Honourable Members of the Senate:

Members of the House of Commons:

It is the will and pleasure of the Right Honourable the Deputy Governor General that this Parliament be prorogued until a later hour this day, to be here holden; and this Parliament is prorogued accordingly.

Points of Order:

1. By Mr. Applewhaite: That a proposed amendment to a clause of a Bill (*British Columbia Telephone Company*) could not be moved to the motion for second reading when the principle of the Bill only is under consideration. Mr. Speaker ruled the proposed amendment out of order, 189.
2. By Mr. Benidickson: That debate on the motion for second reading of a Private Bill (*Border Pipeline*), and on a proposed amendment thereto should not be proceeded with in the absence of the sponsor of the Bill: Mr. Speaker ruled the point of order well taken, 323.
3. That an amendment to the motion for second reading which would refer the subject-matter of a Private Bill to a Standing Committee was out of order: Mr. Speaker allowed the amendment to stand, 323.
4. On the decision of the Chairman of Committee of Ways and Means that an amendment in general terms which does not set out a specific amount was out of order in respect of a Ways and Means Resolution, and an appeal being made to the House, the ruling of the Chairman was sustained (yeas 129; nays 50), 332-3.
5. On the decision of the Chairman of Committee of Ways and Means that an amendment was out of order on the ground that the tax to be substituted was not sufficiently specific and was irrelevant to the Excise Tax Resolution; and an appeal being made to the House, the ruling of the Chairman was sustained (yeas 140; nays 26), 333-4.
6. On the decision of the Chairman in Committee of Ways and Means that an amendment was out of order because it was not in order to move the deletion of a particular clause in an Excise Tax Resolution as it altered the balance of Ways and Means; and an appeal being made to the House, the ruling of the Chairman was sustained (yeas 112; nays 46), 335-6.
7. By Mr. Fulton: That an honourable Member was not in the Chamber when the question was put and therefore should not have voted; and that another honourable Member left his seat after Mr. Speaker had put the question and while the vote was in process of being taken: Mr. Speaker ruled that, the honourable Member having said that he was in the House when the question was put, his word must

Points of Order—(Concluded)

be accepted; and that, in accordance with Standing Order 12, it was irregular for an honourable Member to move from one place to another or to leave the Chamber while a vote was being taken or before result of a vote was announced, 336.

8. By Mr. Knowles: That the Parliamentary Assistant to the Minister of Labour, not having moved a motion, would not close the debate by speaking a second time: Mr. Speaker ruled that the Parliamentary Assistant had spoken on behalf of the Minister, who did move the motion at the opening of the said debate, and therefore he would close the debate if he spoke again, 400.
9. On an amendment to motion for House in Committee of Supply: Mr. Speaker ruled that matters before the Board of Transport Commissioners are *sub judice* and that the amendment proposed would be bound to affect the adjudication by the Board of any application, and accordingly the amendment was out of order, 486.

Speaker's Rulings:

1. Proposed motion of Mr. Coldwell to adjourn House under Standing Order 31 *re* failure of government to meet the demands of wheat producers by announcing a final payment of only 8.3 cents per bushel on wheat in the five-year pool etc., ruled out of order on the ground that an opportunity to discuss the question fully would arise in the near future; motion not put from Chair, 136.
2. Proposed motion of Mr. Knight to adjourn House under Standing Order 31 *re* press announcement of rise in cost of living index to an all-time high, and the need for the immediate establishment of price controls, etc., ruled out of order on the ground that there was no "urgency of debate" as the matter proposed could be discussed on the first order of business this day; motion not put from chair, 141.
3. Proposed amendment of Mr. Cruickshank to amend a section of a Bill (British Columbia Telephone Company) moved on the motion for second reading of the said Bill; Mr. Speaker ruled the amendment out of order on the ground that an amendment to a section of a Bill could not be moved on the motion for second reading when the principle of a Bill is under consideration, 189.
4. Proposed amendment to motion to appoint a Special Committee (Veterans Affairs); Mr. Speaker ruled the proposed amendment out of order on the ground that an amendment cannot propose wider powers than those which were set out in the Notice of Motion, 243.

Speaker's Rulings—(Continued)

5. Proposed amendment to motion to appoint a Special Committee (Veterans Affairs); Mr. Speaker ruled the proposed amendment out of order on the ground that it neither added to nor detracted from the Notice of Motion, nor did it clarify the Notice of Motion, 243.
6. Mr. Speaker ruled that a motion to adjourn the House under Standing Order 31 must be made after the ordinary daily routine of business has been concluded and before Notices of Motions or Orders of the Day are entered upon, 247.
7. Proposed motion of Mr. Drew to adjourn the House under Standing Order 31, *re* announcement of greatest monthly increase in Canadian cost of living index, etc.; Mr. Speaker ruled the proposed motion out of order on the ground that the matter was not one of urgency within the meaning of Standing Order 31(3) as the matter could be discussed on the motion for House in Committee of Supply to be made in the near future; motion not put from the Chair, 247-8.
8. Objection being taken in Committee of Ways and Means to decision of the Chairman that a vote having been taken to the effect that the Excise Tax Resolution should not be considered item by item, it was not open to a Member to ask that it be so considered; and an appeal being made to the House, the ruling of the Chairman was sustained (yeas 122; nays 52), 306-7.
9. Point of order being raised by Mr. Benidickson that debate on the motion for second reading of a Private Bill, and amendments thereto, should not proceed in the absence of the sponsor of the Bill; Mr. Speaker ruled the point of order well taken, 323.
10. Point of order being raised to the effect that an amendment to the motion for second reading of a Private Bill was out of order in that it proposed to refer the subject-matter of a Private Bill to a Standing Committee; Mr. Speaker allowed the amendment to stand, 323.
11. Objection being taken to the decision of the Chairman of the Committee of Ways and Means that an amendment in general terms which does not set out a specific amount was out of order in respect of a Ways and Means Resolution; and an appeal being made to the House, the ruling of the Chairman was sustained (yeas 129; nays 50), 332-3.
12. Objection being taken to the decision of the Chairman of Committee of Ways and Means on a point of order that a proposed amendment was out of order on the ground that the tax to be substituted was not sufficiently specific; and was irrelevant to the Excise Tax Resolution; and an appeal being made to the House, the ruling of the Chairman was sustained (yeas 140; nays 26), 333-4.
13. Objection being taken in Committee of Ways and Means to the decision of the Chairman on a point of order that a proposed amendment was out of order because it was not in order to move the deletion of a particular clause in an Excise Tax Resolution because it altered the balance of Ways and Means; and an appeal being made to the House, the ruling of the Chairman was sustained (yeas 112; nays 46), 335-6.
14. Point of order raised by Mr. Fulton that an honourable Member was not in the Chamber when the question was put and therefore should not have voted; that another honourable Member had left his seat after Mr. Speaker had put the question and while the vote was in process of being taken; Mr. Speaker ruled that the honourable Member having said that he was in the House when the question was put, his word must be accepted; and that according to Standing Order 12 it was irregular for an honourable Member to move from one place to another or to leave the Chamber while a vote was being taken or before the result of a vote was announced, 336.

Speaker's Rulings—(Concluded)

15. Proposed motion of Mr. Gillis to refer a proposed Resolution to approve a convention of the International Labour Organization to the Industrial Relations Committee; Mr. Speaker ruled that it was not an amendment to a motion to move that the motion be referred to a Committee; that not more than one question can be before the House at the same time, and that notice was required of a motion such as the one proposed, 399-400.
16. Point of order raised by Mr. Knowles that the Parliamentary Assistant to the Minister of Labour, not having moved the motion to concur in an international labour convention, would not close the debate by speaking the second time; Mr. Speaker ruled that the Parliamentary Assistant spoke at the opening of the debate on behalf of the Minister who moved the motion and therefore, if he spoke again, he would close the debate, 400.
17. Proposed amendment by Mr. Fulton to motion for House in Committee of Supply; Mr. Speaker ruled the amendment out of order because it anticipated by a negative motion something which may be presented to the House at a later date, and as being in conflict with a previous decision (Speech from the Throne) of the House, 407-8. Ruling appealed and sustained (yeas 138; nays 36), 408-9.
18. Statement by Mr. Speaker respecting Members rising on so-called questions of privilege to bring to the attention of the House that an athletic organization had brought distinction to the Member's riding or to the presence of groups in the Gallery, etc.; also to the method to be followed when putting oral questions to Ministers when Orders of the Day are called; and also to the undesirable practice of reading prepared speeches in the House, 427-8.
19. Proposed amendment by Mr. Argue to motion for House in Committee of Supply; Mr. Speaker ruled the amendment out of order on the ground that matters before the Board of Transport Commissioners for decision are of a judicial character within the meaning of the rule which prohibits a debate in the House of matters which are sub judice, 485-6.
20. Proposed amendment by Mr. Blackmore to motion for third reading of Bill No. 381 (Letter R-12 of the Senate), "An Act to amend The National Housing Act, 1944"; Mr. Speaker ruled the proposed amendment out of order on the ground that it dealt with a matter which was not contained in the Bill; also that the amendment sought not only to alter the principle of the amendment Bill, but also to alter the principle of the main Act, 530.
21. On a question raised by Mr. Knowles on whether it was in order not to set forth the maximum expenditure in a resolution preceding a Bill for any public aid or charge upon the people; Mr. Speaker ruled that it would be desirable, wherever possible, to include in proposed resolutions an indication of the expenditure to be incurred, although there was no positive legal requirement that such be done, 617.
